### **Letters are created by light and shadow**

The design of Le Méridien is inherited its French style. Especially to deserve to be mentioned, the wall near elevator is projected some sentences by light and shadow:

《What makes the desert beautiful is that somewhere it hides a well》;

《What is essential is invisible to the eye ; Only with the heat that one can see right》. That artwork is made by Belgian artist Fred Eerdekenes who is specialize in creating sculpture that masterfully manipulated light and shadows.

### **The Space for Banquet**
