**Taipei**

Location	Xinyi Commercial District, Taipei
Floor	B1, B2, 1-12F
Installation	Lite-Puter Team
Lighting Designer	Tino Kwan
Equipment	Lite-Puter Lighting Control System

**Fist International Art Hotel in Taiwan**

Now the brand new landmark in the vibrant Xinyi Commercial District, Le Méridien Taipei was officially opened with much fanfare in December 2010.

Renowned for its fashion and taste of human art objects, the Le Méridien brand was established in 1972 by Air France to provide a home away from home for its customers. In November 2005, Le Méridien merged with Starwood Hotels & Resorts Worldwide, Inc., and it is now a member of a global hotel group with a portfolio of more than 120 luxury and upscale hotels in 50 countries worldwide.

Designed to appeal to the modern mindset, Le Méridien has developed three core values based on the desires and needs of its Creative Guests: Chic, Cultured, and Discovery. Le Méridien features over 700 original artworks created exclusively for the hotel by contemporary artists around the world. Le Méridien embraces Lite-Puter lighting control system, not only to accentuate the value of these artworks, but also to participate in being environmentally responsible.

### **Let There Be Light and Shadow**

The design of Le Méridien inherited its French style; eyes are immediately caught on the modest yet stylish displays. The Belgian artist Fred Eerdekens, specialized in creating sculptures with manipulation of lights and shadows, has added much sparks to this artsy hotel. Projected artworks with meaningful sayings like “What makes the desert beautiful is that somewhere it hides a well” and “What is essential is invisible to the eye; only with the heart that one can see right” softly strip boringness off the walls with contemporary luxury and elegance.

### **Banquets and More**

With a total investment of USD\$ 4 million, Le Méridien hosts three banquet rooms and six multifunctional rooms, with a total floor area of 1,620 square meters. There are 1280 LEDs (160 channels with 8 LEDs for each channel) in this area, all controlled by the lighting control system provided by Lite-Puter.

After completing the Le Méridien with much success, the Lite-Puter team is looking forward to accomplishing more lighting control missions at the W Taipei, Novotel Taipei Taoyuan International Airport, and many more.
