

Hotel NOVOTEL Taipei Taoyuan International Airport

Exclusively invested by China Airlines and operated by Novotel under the largest French hotel chain, Accor Group, Novotel Taipei Taoyuan International Airport was opened in November 2009. Conveniently located close to the Taoyuan Convention Centre and Aviation Museum Park, Novotel Taipei Taoyuan International Airport features 360 modern rooms, two restaurants, three bars, a 24-hour fitness center, an indoor pool, a spa center, and conferencing facilities holding up to 700 delegates.

Novotel Taoyuan International Airport

The interior architecture and decoration adapt minimalism, with stylish sofas, streamlined lamps, and red carpets in each corner of the lobby.

Conferencing facility is located on the side of the lobby. It can be divided into individual conference rooms according to the purpose. With the partitioning features of Lite-Puter's lighting systems, the area is able to be divided into

three parts, and can be controlled independently or synchronously.

A Chinese restaurant—The Wei— is located on the second floor. Its theme of red and black, along with decorations with tassels, engraved shields, and Chinese red lanterns create a traditional Asian atmosphere with a modern twist. The high contrast between the main colors is emphasized by Lite-Puter lighting control system. The preset lighting effects can be recalled easily by scene buttons on the control panels.

A large number of high-powered metal halide lamps are installed in the gym, pool, and spa areas. Taking into consideration the requirement of high capacity and flexibility among dimmable and switching lamps, Lite-Puter chose DX-1220, a 12-channel dimmer pack with 20A output per channel, to control these areas.

EDX-1212A, a 12 channel wall-mounted dimmer pack, is installed in most areas for two reasons. First, the requirement of capacities for each channel in these areas is under 5A. Second, a rack case is not required by wall-mounted dimmers, so much space and costs can be saved by using EDX-1212A.

Through Lite-Puter's EDX protocol, the system can be divided into 99 zones by multiple devices (8 zones per device). The feature is very important for places like restaurants, which private rooms need to be controlled independently. It is easy to set zones directly through EDX control panels, such as ECP-106 and CP-3B.

Equipments used for Conferencing Facility:

	Model	Description	Quantity
1	EDX-912	9CH 10A Dimmer Pack	3
2	EDX-610	6CH 10A Dimmer Pack	3
3	ECP-106	Wall Control Panel	3
4	DX-1220	12CH 20A Dimmer Pack	4
5	DP-6B	DMX Interface	1
6	DP-11	DMX Patch Setting Interface	1
7	CP-3B	Programmable Wall Control Panel	1
8	CP-2B	Wall Control Panel	1
9	DP-81	DMX Signal Splitter	1
10	DP-82	DMX Signal Mixer	1
11	CX-12	96CH DMX Console	1

Equipments used for Chinese Restaurant:

	Model	Description	Quantity
1	EDX-1212A	12CH 10A Dimmer Pack	8
2	ECP-106	Wall Control Panel	9

Equipments used for entire project:

	Model	Description	Quantity
1	DX-1220	12CH 20A Modular Dimmer Pack	19
2	EDX-1212A	12CH 10A Dimmer Pack	16
3	EDX-912	9CH 10A Dimmer Pack	4
4	EDX-610	6CH 10A Dimmer Pack	4
5	DP-6B	DMX Interface	7
6	CP-3B	Programmable Wall Control Panel	7
7	DP-11	DMX Patch Setting Interface	7
8	ECP-106	Wall Control Panel	39
9	CP-2B	Wall Control Panel	1
10	DP-81	DMX Signal Splitter	1
11	DP-82	DMX Signal Mixer	2
12	CX-12	96CH DMX Console	1
